SUMMARY

Full-Stack Developer with hands-on experience building and deploying web applications using TypeScript, React, Next.js, Node.js, and PostgreSQL. Developed **StackWing**, a developer job-search platform featuring multi-source job aggregation, subscription billing, and AI-assisted features. Experience includes frontend development, REST APIs, database design, automated testing, and deployment.

SKILLS

Languages
TypeScript, JavaScript, SQL, HTML, CSS

Backend & Database
Node.js, Express, REST APIs, Zod, PostgreSQL, Drizzle ORM

Integrations
Clerk Authentication, Stripe Subscriptions, OpenAI API

Frontend
React, Next.js, Tailwind CSS, Responsive Design, Accessibility

Testing & Deployment
Vitest, Playwright, Git, GitHub Actions, Docker, Render

PROJECTS

StackWing — Developer Job Search Platform 10/2026 – Present
Personal Project | Next.js, TypeScript, Express, PostgreSQL
- Built and deployed a full-stack application aggregating developer jobs from four sources, with search filters, saved jobs, and application tracking.
- Implemented profile-based job matching and AI-assisted resume extraction and job chat, with cached responses and usage budgets.
- Integrated Clerk authentication and Stripe subscriptions, including signed webhooks, duplicate-event handling, and billing synchronization.
- Developed automated tests and GitHub Actions workflows; containerized the frontend and backend with Docker for deployment on Render.

Audiophile Store — E-commerce Frontend 09/2026 – 09/2026
Frontend Mentor Project | Next.js, TypeScript, Tailwind CSS
- Built a responsive, multi-page storefront from supplied Figma designs using reusable product and layout components.
- Implemented a persistent shopping cart, checkout form validation, and an order-confirmation flow.

Kanban Task Management App 08/2026 – 09/2026
Frontend Mentor Project | Next.js, TypeScript, Tailwind CSS
- Built a responsive task-management interface from supplied designs, supporting customizable boards, tasks, subtasks, and theme switching.
- Managed related board and task state with Local Storage persistence to retain the workspace across browser sessions.

EDUCATION

Computer Science Studies — Degree Not Completed Taungoo, Myanmar
University of Computer Studies

High School Education Bago, Myanmar
BEHS No. 1, Bago

CERTIFICATES

- Backend Developer Path — Scrimba
- Front-End Developer Path — Scrimba
